## **2023 BUILDING PROJECT**

Building the church of Jesus Christ in the heart of Europe

(PHOTOS TAKEN BEFORE  
THE COVID-19 PANDEMIC)

## WHO ARE WE?

Bruxelles-Woluwe church is committed to proclaiming the good news of Jesus-Christ to make disciples of all the nations as they gather in Brussels and as they reach out across the world.

Planted in 1979

Situated in Woluwe

170 adults

70 children

Woluwe-Saint-Lambert  
(58 000 habitants)

Woluwe-Saint-Pierre  
(41 000 habitants)

### OUR CHURCH MOTTO (IN FRENCH!)

« Une Église qui  aime,  
qui  sème, et qui  essaime. »

**We love God**, because in Christ he first loved us, and that love compels us to love and serve our neighbour.

**We sow the word of God**, the Bible, because it is through his word that God works powerfully by His Spirit to build His church.

**We are a sending church**, spreading the message of Christ further afield, supporting other gospel works and churches who also work to this end.

Our two recent  
church plants:

**Etterbeek**  
(2015)

**Louvain-La-Neuve**  
(2019)

# WHY A NEW BUILDING?

1

Our current building (a converted residential house) is **now too small**, and we squeeze people in across two back-to-back services (Covid permitting). It is not fit for the purposes of a growing church with **significant Sunday and mid-week ministry activities** (children, catering facilities, toilets, security/fire regulations, etc.)

2

A bigger building allows us to **grow and strengthen the church core** (situated in Brussels means that there are many people passing through or who are discovering a Christian faith centred on the word of God.) This will enable us to **send a more significant number** established disciples out from Woluwe in the future.

Our current building

The new building

## THE PROJECT

Buy the equivalent of a two-floor commercial space on the ground floor of a residential building.

Around 650m2 : seating for 300-350 and plenty of ancillary room for different church activities.

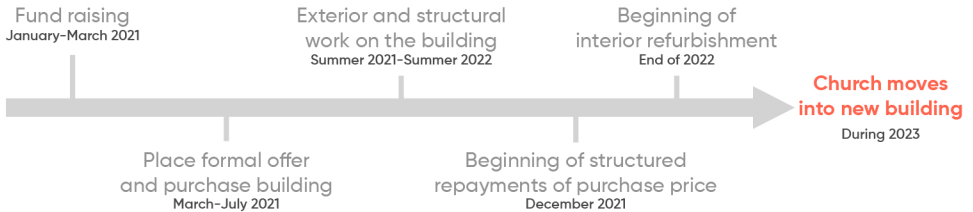

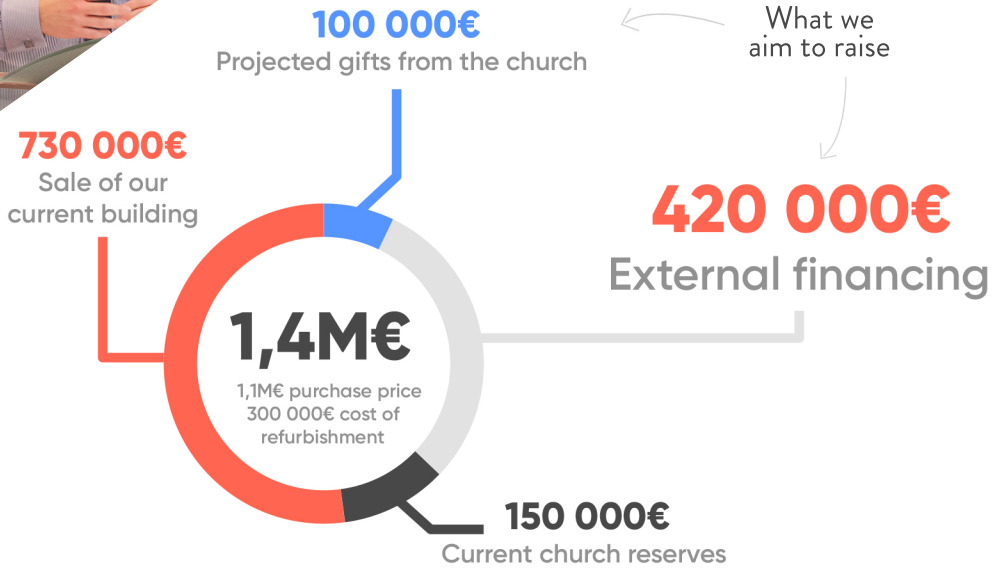

Situated on a large avenue with a new tramline from 2023. 1,5 km to a major university and hospital, and to a large shopping centre.

We are convinced, in the **context of evangelicalism in Belgium**, that this building represents an **excellent opportunity** for the strengthening of Christian faith in Brussels and further afield, and guarantees a modern church building which will **serve the cause of the gospel**, God-willing, for many years to come.

# COST OF THE PROJECT
